MAYS ALSHAMRANI

Artificial Intelligence Engineer

mays.ss1424@gmail.com | Eastern Province, Saudi Arabia

linkedin.com/in/mays-alshamrani-885238255 | github.com/m142411

PROFESSIONAL SUMMARY

AI Engineer with hands-on experience across machine learning, deep learning, NLP, and RAG/agent systems. Built and deployed forecasting, retrieval-augmented generation, and deep learning solutions across procurement, research automation, and biomedical signal analysis. Comfortable working across the AI stack, from model development to API deployment. Seeking AI Engineer roles focused on RAG and LLM-agent systems.

EDUCATION

University of Bisha **Bisha, Saudi Arabia**

Bachelor's Degree in Artificial Intelligence **Sep 2021 – Aug 2025**

- GPA: 4.27/5.00
- Graduation project: BERT-based Smart Reply system

WORK EXPERIENCE

Confidential Client (Saudi Food Import Company, NDA) **Saudi Arabia**

AI Engineer, Contract Project — AI Procurement Decision-Support System **Dec 2025 – Jun 2026**

- Built a CNN-LSTM model forecasting palm oil (FCPO) prices 8 weeks ahead (95.1% accuracy, 4.9% MAPE) and a per-supplier fair-price model (MAE 1.74 SAR/can).
- Analyzed about 8 years of company transactions (616,740 cans, 48.4M SAR over 6 months), identifying 316,336 SAR of timing-based savings across 3 deals.
- Built a cardamom decision-support model (about 96% accuracy) giving weekly buy signals, with an expected 11.7% saving versus market price.
- Deployed via FastAPI/VPS with n8n automation for monthly Arabic executive reports.

PROJECT & RESEARCH EXPERIENCE

BidMind AI – RFP Intelligence System

Team Lead, 4-person team

- Hybrid RAG pipeline using BM25, dense retrieval & Cross-Encoder (ChromaDB); RAGAS on 20 questions: faithfulness 0.661 to 0.822, context precision 0.778 to 0.898, 92.6% overall.

AI Research Agent

LangGraph, Multi-Agent Systems

- Multi-agent Arabic research pipeline with claim verification using LangGraph, FastAPI & Redis caching; 263 automated tests.

EEG-Based Arabic Speech Identification

CNN

- CNN-based EEG biometric identification using Arabic speech data; 86% accuracy.

EEG Alzheimer's Detection

EEGNet, Deep Learning

- EEGNet classifier for Alzheimer's detection; 0.983 AUC, 80.9% accuracy.

PROFESSIONAL QUALIFICATIONS

AI Engineer Bootcamp — Saudi Digital Academy (SDA) × WeCloudData **2026**

Professional Certificate in Machine Learning — IBM **2023**

Fundamentals of Deep Learning — NVIDIA **2025**

AI Program — Samsung Innovation Campus × Misk **2025**

AI Engineer Core Track — Udemy **35 hours**

SKILLS

Languages	: Arabic (Native), English (Professional working proficiency)
Programming & Tools	: Python, Git
ML & Deep Learning	: PyTorch, TensorFlow, CNN, LSTM, Transformers (BERT)
NLP & RAG	: LangChain, LangGraph, Hugging Face, ChromaDB, RAGAS, Ollama, Multi-Agent Systems
Deployment	: FastAPI, Docker, Redis, n8n, REST APIs
CV & Signal Processing	: OpenCV, EEGNet
